

## **AIMS AND SCOPE**

The *NIJBM* is a double blind peer-reviewed journal that publishes quality articles in the field of business management. The journal aims wide circulation and visibility of its research to professionals and practitioners both within Pakistan and internationally. The guiding principles of the editorial policy of the journal are based on the criteria of quality, originality, innovation and practical implications. The editorial board welcomes quality research articles from all areas of business management. The board also encourages quality research from the newly developing business and management fields. The scope of the journal is broad but its primary focus is on business management.
