Preface

The MPhil/PhD Research Theses' Directory as an initiative of Office of Research Innovation and Commercialization (ORIC) is a continuation of its endeavor to provide and preserve a comprehensive, up-to-date record of the research input at the National University of Modern Languages (NUML), Islamabad.

Directory for 'Degrees of PhD and MPhil' was made by ORIC up to the year 2014. During the year 2015 & 2016, 63 PhD and 155 MPhil degrees were awarded. This data needs to be incorporated into the directory. The second version of Research Directory provides a general reference and a valuable resource with research titles and names of the MPhil and Doctorate scholars who conducted their researches up till 2016. Moreover, there were three faculties when the first directory was published and now there are five faculties. In order to assimilate the above mentioned changes, ORIC has developed updated version of 'Directory for Degree of Ph.D. and MPhil up to the year 2016'. It serves as a database to provide an outline of the variety of areas in which research is conducted. The subject-based approach in the directory allows its users an easy access to their field of interest and act as a spring board for their productive research.

The interest and guidance of Prof. Dr. Karamat Ali, Director ORIC, the commitment of Mr. Irfan Raza who helped with the gathering of information along with ORIC team who assisted in bringing this directory to life, is appreciated.
