NO POVERTY

Goal 1: No Poverty

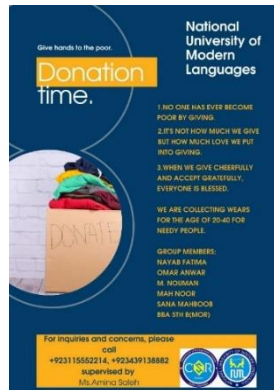

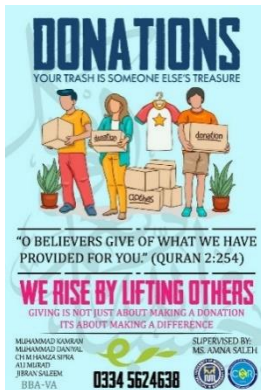

Need-Based Financial Aid Program

Higher Education Commission (HEC) Need-Based Financial Aid Program aims to make NUML education affordable and accessible to the financially challenged students, admitted purely on merit. The program facilitates the students from low and middle-income families.

Recycling of Winter Clothes

The students worked in collecting and recycling winter clothes for distribution among the needy. The students collected reasonable clothes, washed them with detergents, ironed and packed them. The clothes were distributed to the people in the local areas near campus, in the campus, and to Madrasas where children were in need. url:

Wedding Assistance Projects

The society of students of Bachelors of Business Administration (BBA) helped two families make arrangements for their daughters' wedding who couldn't bear the expenses.

The students collected funds and made contributions themselves as well in order to assist the families in need to make arrangements for their daughters' weddings. With the funds collected, the students bought items like iron, sewing machine, refrigerator, microwave oven, washing machine, cooking pots and crockery, mattress, bed sheets, pillows, blankets, praying mats, towels, shoes and some clothes.

NUML Support Fund for Needy People

During pandemic, the University developed Support Fund for jobless people to provide them food and medicines.

In the face of the devastating impact of coronavirus, it is time for the vibrant NUML community to hold the hands of the poor people such as the daily workers and laborers. NUML Support Fund ranging from Rs. 100/- to as much as you can. With your donations, we intend to ensure a constant and robust supply of food/medical items and financial assistance to the needy and deserving.

Anti-Poverty Policy

NUML has anti-poverty policy to demonstrate how the University provides opportunities for quality education to poor and underprivileged students. NUML offers various scholarships for students to encourage excellence in studies through rewarding high academic achievers through various types of Advance Merit/Merit scholarships and also to support less privileged student(s) to attain their goals/target by offering purely Need-Based Scholarships. NUML believes that no one should be deprived of education merely on the grounds of inability to pay.

Fund Raising for Needy People

The project was launched to collect funds for people in need or going through financial crunch. Campaigns were initiated and the funds were utilized to help the people in need.

GOAL 2

ZERO HUNGER

GOAL-2: ZERO HUNGER

Policy on Student Hunger

NUML has policy on Student Hunger; the accessibility to nutritious, balanced and healthy food is counted amongst the basic human requirements of human beings. With no exception all resources should be directed and channelized for the fulfillment of this basic need of the people. Having established this fact, the University share a burden of this responsibility and laid out a road map wherein the affected students are identified and then adequately taken care of. It is in this backdrop that a policy has been formulated.

Policy on Campus Food Waste

Food wastage has become a worldwide phenomenon. It has been estimated that nearly one third of the food produced is wasted at various stages from its production to consumption. This is a very serious issue which needs to be addressed seriously and concrete efforts are required to reduce it to the minimum. To reduce food waste, NUML has policy on Campus Food Waste.

Policy for Community Anti-Poverty Programmes in Connection with UN SDGs

NUML also has policy for Community Anti-Poverty Programmes in connection with United Nations Sustainable Development Goals (SDGs). The purpose of this policy document is to provide anti-poverty programmes to NUML community as well as the wider community in general.

Eid Food Drive

The drive was organized by NUML Social Responsibility Society (SRS) of English Department. The goal was to provide meals on Eid to all those on-duty officials in Islamabad and Rawalpindi who stay away from their families for the good of the country.

This idea was discussed in a meeting of the core committee SRC. An initial target of providing meal boxes to 500 people was approved and contributions were first made by the members of SRC only. EasyPaisa, JazzCash and bank accounts were shared with the members. Later, the plan was extended and served 1200 fellows contributions exceeded beyond the expectations of the members of the SRC.

HULT Prize Competition

Hult Prize Competition was organized again in year 2021; the competition included virtual and on-campus meet-ups. *Mr. Humayun Shuja* - Managing Director, Net Solutions was the Chief Guest. The students participated in the form of teams in the Competition - they presented their ideas to the judges.

Hult Prize Foundation was founded in 2010; its mission is to solve global social challenges through crowdsourcing ideas and solutions from the world's best and brightest students. Hult Prize brings together brightest college and university students from around the globe to focus on solving one of the world's key social challenges and awards one million US dollars in startup capital to the winner.

The program gives universities an opportunity to host a local Hult Prize event at its campus, allowing the winning team to bypass the traditional application process and fast track their idea through one of twenty-five plus regional final rounds of competition. The program allows more students to compete, leading to more ideas and ultimately more startups.

In the competition, six teams participated; the team led by *Ms. Ammara Taj* won the competition. The winning team will compete in the Regional Competition.

GOAL 9

INDUSTRY, INNOVATION AND INFRASTRUCTURE

GOAL 9: INDUSTRY, INNOVATION AND INFRASTRUCTURE

Industry-Technology Cell of NUML (IT CON)

Industry Technology Cell of NUML (IT CON) helps transform research and ideas into commercially viable products. The cell provides technology services and support to business, industry and academia.

In-House Projects

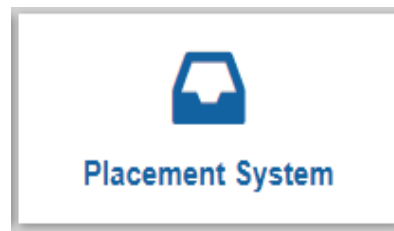

IT CON did following in-house projects for the University:

- *Internship/Job Placement System*
- *Publication System*
- *E-Registration System for Course Allocation*
- *Online Feedback System for Courses and Teacher's Evaluations*
- *E-Library and Theses Repository*

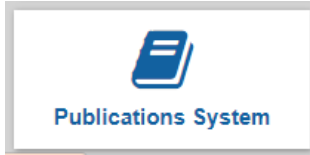

Internship / Job Placement System

The System was developed for students of three semesters (six, seven and eight) to be able to enter their academic details, expertise and area of interest. Its purpose is to facilitate students in getting internships and jobs.

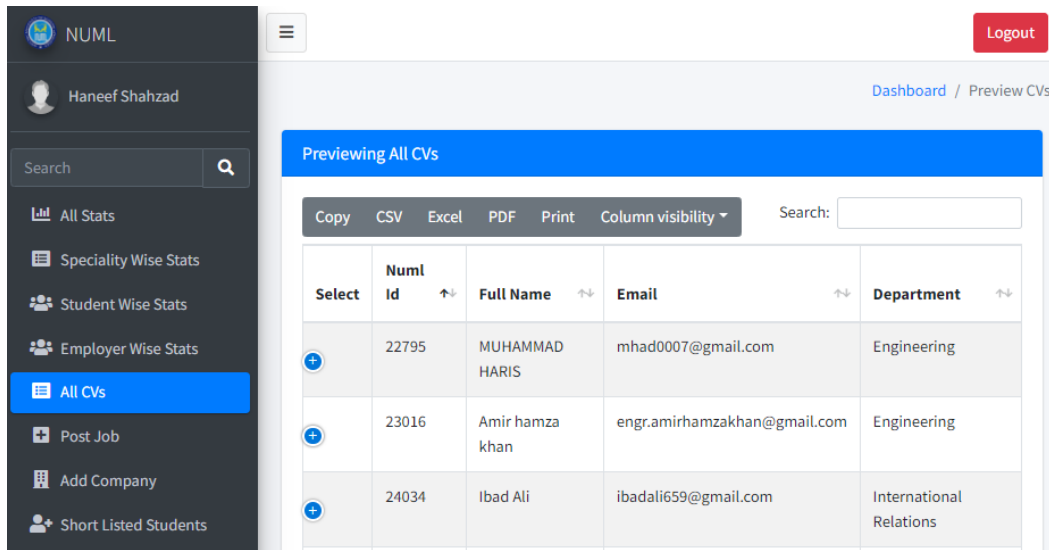

Respective focal persons can view and manage student's records – they can allocate the students for the jobs shared by *Manager Placement Centre*. Campus Managers and focal persons can also access the System to process internship and job placements.

Publication System

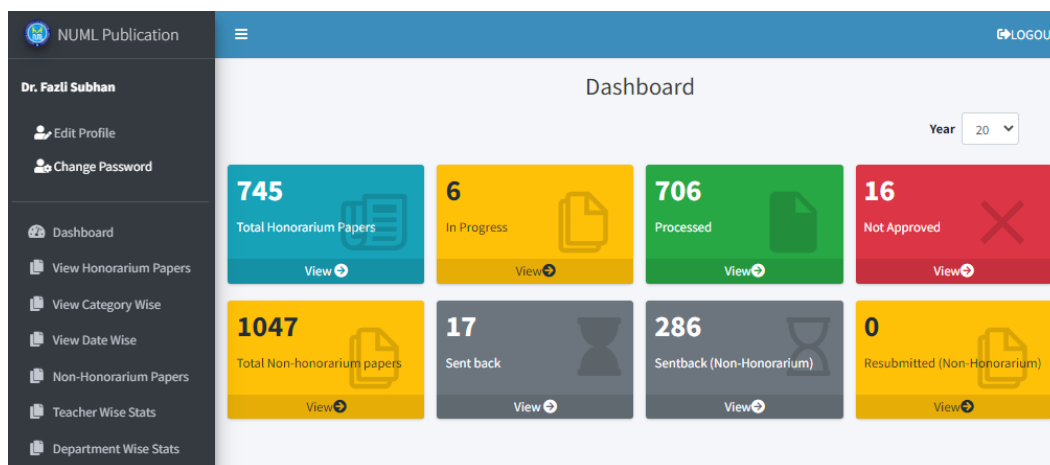

The Publication System was developed for faculty members to enter details of their publications in order to process their applications for honorarium cases (research papers published in HEC approved journals) online. The system shows the status of honorarium cases: In-progress, Sent Back, Approved and Not-approved by the authority.

The screenshot shows the 'Previewing All CVs' interface. The sidebar menu includes options like 'All Stats', 'Speciality Wise Stats', 'Student Wise Stats', 'Employer Wise Stats', 'All CVs' (highlighted), 'Post Job', 'Add Company', and 'Short Listed Students'. The main content area displays a table with columns for 'Select', 'Numl Id', 'Full Name', 'Email', and 'Department'. Below is the data from the table:

Select	Numl Id	Full Name	Email	Department
	22795	MUHAMMAD HARIS	mhad0007@gmail.com	Engineering
	23016	Amir hamza khan	engr.amirhamzakhan@gmail.com	Engineering
	24034	Ibad Ali	ibadali659@gmail.com	International Relations

The Publication System also holds records of other research publications (non-honorarium) of faculty members of Main and Regional Campuses. In the System, the members can view their publications in a single table in HEC approved format. A separate table shows publications in a generic CV format.

E-Registration System for Course Allocation

E-Registration System was developed for the students to register their courses online. Coordinators of Departments allocate courses offered to the faculty members. The system generates digital roll number slips to the students, which are visible to the coordinators. In the System, the coordinator can monitor attendance of students; students with low attendance are not issued roll number slips. Attendance sheets for examination are also generated from the System.

Online Feedback System for Courses & Teacher's Evaluation

Online Feedback System gathers online feedback of students who registered the courses offered in a semester. For continuous improvement, through an online form, student's feedback is taken against the courses taught and the faculty members who taught the courses.

Quality Enhancement Cell (QEC-NUML) uses the System to generate reports (based on student's feedback), comprising scores of courses taught and the respective faculty members. The system was further modified to generate new reports for different sections.

The screenshot shows a user profile page for Muhammad Sami Ud Din. The interface includes a dark sidebar with navigation options like 'Student's Guidelines', 'Dashboard', 'Course Registration', 'Upload Picture', 'Job Placement', and 'Settings'. The main content area displays the user's profile information, including a photo, name, father's name, registration number, CNIC, mobile number, department, and discipline. Below this, a 'QEC STATUS' section shows a pending evaluation icon and message. At the bottom, a 'Registered Course' table is partially visible with columns for S.No, Course Code, Course Title, Credits, and Attendance.

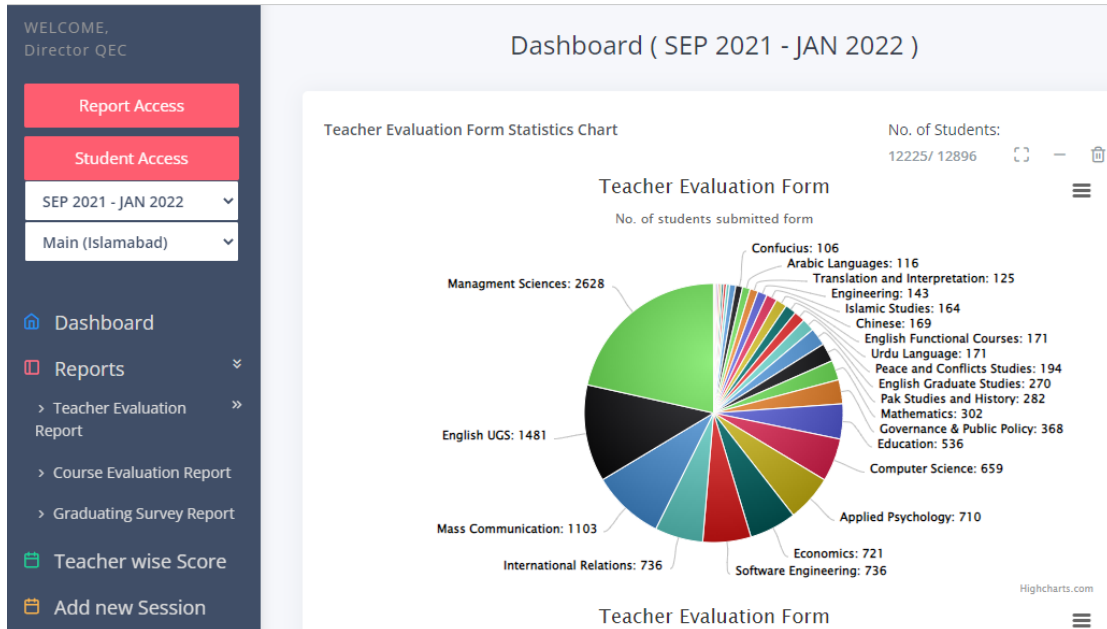

S.No	Course Code	Course Title	Credits	Attendance
------	-------------	--------------	---------	------------

E-Library and Theses Repository

E-Library comprises the course books taught during a semester of all departments. Students can also access other recommended books online. The system was updated; now, Theses Repository offers access to theses of M.S. and Ph.D. Students of Main and Regional Campuses can access the System.

The students of Computer Science and Software Engineering Departments join Industry Technology Cell of NUML (IT CON) to flourish their programming and relevant IT skills. It helps the students of six semesters (from second to eight) to work on a specialized tool to become “Master of One” until the completion of degree.

Anti-Discrimination-Anti-Harassment Policy and Complaint Procedure

NUML is committed to maintaining an environment that encourages and fosters appropriate conduct among all its stakeholders and motivates respect for individual values. Accordingly, the University is committed to enforcing Anti-Discrimination and Anti-Harassment Policy and Complaint Procedure at all levels in order to create an environment free from discrimination, harassment, retaliation and/or sexual assault. The policy demonstrates the University's strong commitment to prevent discrimination and harassment especially against underrepresented groups.

Meeting with *Director General Human Rights*

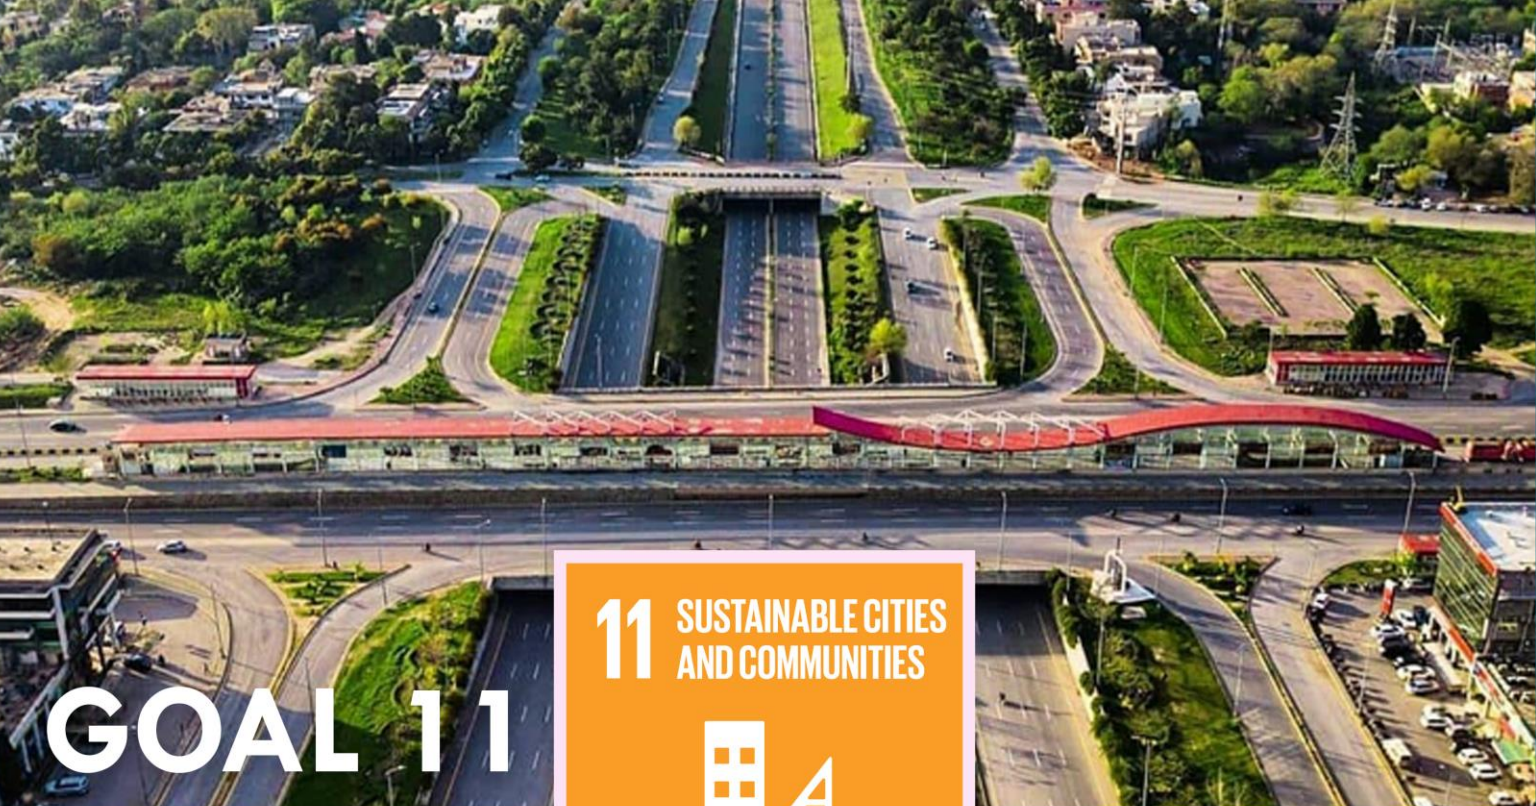

Team members “Strengthening Sanitation Saviors” met *Mr. Muhammad Arshad* - Director General (DG) Human Rights, Ministry of Human Rights, Government of Pakistan to highlight and explain the daily discrimination faced by sanitation workers. Students of G&PP Department recommended him to start an advertisement campaign for stigma eradication.

Addressing Special Needs

At NUML's Medical Inspection (MI) Room every effort is made to ensure that staff and students with Special needs are looked after in the best and most efficient possible manner. Students and staff with disabilities are registered at the Medical Center and their accessibility needs are reported to the University administration for a more inclusive experience during their time at the Campus. Whereas, there are ramps and elevators for differently abled students and staff members.

GOAL 11

SUSTAINABLE CITIES AND COMMUNITIES

GOAL 11: SUSTAINABLE CITIES AND COMMUNITIES

Energy Efficient Buildings

NUML is opting for sustainable materials like fiber cement sidings to make its building weather and fire resistant. Fiber cement is a mixture of cement, wood fiber and other additives that contain recycled wood. The fire resistance of fiber cement is great for the safety of the buildings.

Accommodation

NUML provides separate hostels to female, male and international students with amenities like reading room, space for indoor games, a lounge and dining hall with mess. University is secured with more than sixty security guards and cameras for twenty-four hours surveillance. University provides separate parking space for cars and bikes of students.

Transport

University provides transport facility to students, academic and administrative staff. There are twenty-eight buses, which cover major routes of Islamabad and neighboring cities. Almost

half a kilometer from the Main Campus there is Metro Bus Stop - from where University's shuttle service picks students during both the shifts, morning and evening.
