NUML

Wireless Configuration

The document explains how to connect different devices to NUML Wi-Fi network '**Eduroam**'. The method to connect to Wireless is different for different devices. Please make sure that you have to Forget previous Wi-Fi network wireless from your remembered connections before you start to connect with new SSID **Eduroam**.

Use your username with @numlit.edu.pk to connect or to reset password. i.e username: test
You have to use test@numlit.edu.pk in username field.

1: Windows 8/8.1/10

For windows 8, 8.1 and 10 you simply have to forget the remembered network and connect again with SSID '**eduroam**'. Once you try to connect, it will ask for your username and password. Enter your correct credentials and select OK. Select Connect to accept the certificate. If your username and password is correct, you will be successfully connected to Wireless.
