  - d. those

#### Section-B- Analytical Reasoning Section

(15 Marks)

**Question 1-4** A contractor will build five houses in a certain town on a street that currently has no houses on it. The contractor will select from seven different models of houses—T, U, V, W, X, Y, and Z. The town's planning board has placed the following restrictions on the contractor: No model can be selected for more than one house. Either model W must be selected or model Z must be selected, but both cannot be selected. If model Y is selected, then model V must also be selected. If model U is selected, then model W cannot be selected.

1. If model U is one of the models selected for the street, then which of the following models must also be selected?

- |      |      |      |
|------|------|------|
| a. T | c. X | e. Z |
| b. W | d. Y |      |

2. If T, U, and X are three of the models selected for the street, then which of the following must be the other two models selected?

- |            |            |            |
|------------|------------|------------|
| a. V and W | c. V and Z | e. Y and Z |
| b. V and Y | d. W and Y |            |

3. Which of the following is an acceptable combination of models that can be selected for the street?

- a. T, U, V, X, Y
- b. T, U, X, Y, Z
- c. T, V, X, Y, Z
- d. U, V, W, X, Y
- e. V, W, X, Y, Z

4. If model Z is one model not selected for the street, then the other model NOT selected must be which of the following?

- a. T
- b. U
- c. V
- d. W

**Section C: Subject (Governance and Public Policy) Section**

**(70 Marks)**

- Governance **30 Marks**
- Public Policy **30 Marks**
