OBJECTIVE

Obtain a position at an educational institute where I can maximize my training experience, research experience, program development skills, and my teaching abilities. As I am a fully qualified teacher with experience, I'm confident that my passion for teaching and student development, together with my skills and experience will enable me to make a significant difference at your institute.

TEACHING PHILOSOPHY

I believe that a teacher is morally obligated to enter the classroom with only the highest of expectations for each and every one of his students. The teacher maximizes the positive benefits that naturally come along with any self-fulfilling prophecy. With dedication, perseverance, and hard work, his students will rise to the occasion. I aim to bring an open mind, a positive attitude, and high expectations to the classroom daily. I believe that I owe it to my students, as well as the community, to bring consistency, diligence, and warmth to my job in the hope that I can ultimately inspire and encourage such traits in the students as well. I aspire to create student-centered learning environments in which the student is in the driving seat of their own learning. My classrooms are spaces for exploration and discovery. I favor practical lessons in which students get hands-on experience in the subjects under analysis.
