Call for Papers

5th INTERNATIONAL CONFERENCE ON ENGINEERING AND COMPUTING TECHNOLOGIES (ICECT 2027)

Islamabad, Pakistan

18 – 19 March, 2027

Harnessing Next-Gen AI: Advancing Responsible Innovation

Technically co-sponsored by IEEE, with conference proceedings to be submitted for inclusion in IEEE Xplore, subject to IEEE Xplore's scope and quality requirements. Selected high-quality papers will also be considered for publication in the NUML International Journal of Engineering and Computing (NIJEC) (Y Category), subject to peer review.

Computing and Technologies

- Artificial Intelligence & Machine Learning
- Large Language Models & Generative AI
- Cybersecurity, Privacy, & Trust Technologies
- Application Development & DevOps Technologies
- Computer Vision & Pattern Recognition
- Cloud, Edge, & Distributed Computing
- Data Science & Big Data Engineering
- Natural Language Processing & Computational Linguistics
- Emerging Trends in AI, Cyber Security, & Intelligent Systems

Software Engineering & Emerging Technologies

- AI Driven Software Engineering
- Sustainable Software Systems & Data Driven Engineering
- Requirements Engineering for Emerging Systems
- Advances in Software Testing & Quality Engineering
- Software Metrics & Measurement Models
- Software Engineering for Emerging Computing Paradigm
- DevOps & Software Process Automation
- Software Architecture, Design Patterns, & System Evolution
- Secure Software Engineering

Intelligent Systems in Engineering

- Robotics & Autonomous Systems
- Intelligent Control & Automation Systems
- Artificial Intelligence & Machine Learning in Engineering Systems
- Computer Architecture, Embedded Systems, & Hardware Design
- Wireless Communications & Next-Generation Networks
- Internet of Things & Sensor Networks
- Power Electronics, Renewable Energy, & Smart Grids
- VLSI & MEMS Design
- Industrial AI
